

# XL - Xenon I

The absolute king of all capital ships, the Xenon I boasts the strongest hull (over 2x that of a Fulmekron), the strongest shields (beating even the vaunted Arawn), and arguably the highest damage output (if you consider the AoE from its multiple missile launchers). This flying behemoth is highly worth owning if you have the Xenon Hunt mod - but be warned, it is extremely challenging to board!

- Total DPS: 360100
- Hull: 22800K
- Capital Shield Class: Capital Field Generator Mk3 (x5)
- Component Shield Class: Force Field Projector Mk1
- Speed: 64 m/s
- Weapons:
  - HIT/MA Turret (Xenon) x34
  - Plasma/MA Turret (Xenon) x36
  - Novadrone Launcher x2
  - Sunstalker Launcher x6
