

# Godrealm of the Paranid

**Short Name:** PAR

**Moniker(s):** Paranid Empire (formerly), The False Godrealm (By the Holy Order)

## Race Description

The physically imposing Paranid are often regarded as arrogant by several races which usually stems from their exceptional mathematic skills and religious fervour. Allied with the Split and distrusting of the Argon, the Paranid have been in several conflicts where they use their technological prowess and multilevel thinking to gain tactical advantages.

## Description

The Godrealm of the Paranid is a theocratic feudal society worshipping the concept of the three-dimensionality. They refer to their ancient holy texts to justify their archaic power structure and pervasive authority. Although this Godrealm has been cut off from Paranid Prime, they understand themselves to be the true purveyors of the Paranid faith. After the Gates realigned, their strict interpretation of this faith resulted in tensions with the Holy Order of the Pontifex, and eventually, a civil war broke out. Still, the Godrealm maintains that the ultimate goal is not to exterminate the Paranids fighting for Holy Order, but to welcome them back into the fold.
